

ACCESS CANADA INTEGRATES WITH COMMUNITEQ SYSTEMS INC TO SUPPORT THEIR ETM SOLUTIONS FOR OUR CLIENTS.

April 12, 2010, Kitchener Waterloo: Access Canada is pleased to announce that it has formed a strategic relationship with Communitiq Systems Inc to promote Communitiq's eTM™ machines with their clients. Through the direct integration of ARMnet Financial Product Management Solution with SelectCore and Communitiq these machines will be able to provide virtual access to Origination

and Servicing Solutions for credit and insurance related products at the ATM level globally. This will allow us to extend the footprint of a bricks and mortar financial institutions like Credit Unions, Virtual Banks and Alternative Banking or Payday Loan Institutions in an unprecedented manner. As such this extends the Financial Product Management capabilities of ARMnet beyond that of any other financial platform in Canada or the United States.

The CSI kiosks are branded as an eTM™, or "Electronic Transaction Machine", effectively providing "an **ATM on Steroids**" to the clients of Access Canada using ARMnet. Using CSI's stable and proprietary eTM kiosk software together with the power of ARMnet for loan origination and servicing we will extend the capabilities of our clients to provide a number of services, including but not exclusive too:

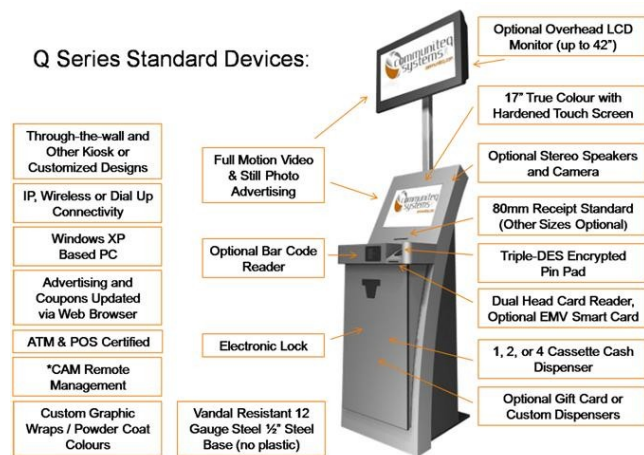

- Digital Signage Support for Advertising, Coupon Promotion
- ATM Cash Dispensing,
- Debit Point-of-Sale Purchases,
 - Transit Ticketing
 - Event Ticketing
 - Quick Serve Restaurant Ordering
 - eRent Tenant Payment
- Credit Point-of-Sale Purchases
 - Bill Scanning and Change Remittance
 - Casino Slot Ticket Redemption
- Prepaid Phone and Long Distance Card Dispensing/Activation/Value Loading,
- Prepaid Gift Card Dispensing/Activation/Value Loading,
- Prepaid MasterCard® Dispensing/Activation/Value Loading
- Cheque Cashing
- Payday Loans
- Emergency Cash Advances
- Out of Country Emergency Travel Insurance
- Web Access (Virtual or Physical Keyboard)

The CSI eTM™ is the only unit certified for use on the Interac® network that can both dispense cash and sell goods and services from the same unattended device.

The web-enabled CAM (Communitiq Automated Management) remote management software allowing worldwide monitoring, application/graphics update, and two way "remote-control" messaging (e.g. clearing a cash jam, or restarting a kiosk)

All of the above are both hardware and software integrated by CSI with a catalogue of standard or custom designed applications developed by CSI.

CSI builds and sells the eTM™, the only unit certified in Canada for both ATM cash dispensing and point-of-sale (debit and credit) transaction processing, and certified and deployed in the US.

As the manufacturer, they design and build custom physical kiosk designs to meet many unique requirements.

In addition to our "suite of standard applications", CSI has developed custom interactive information, internet, purchasing, and dispensing applications.

They will be working closely with Access Canada to further extend their applications through integration with ARMnet and SelectCore to our clients to allow them to offer their customers or members a truly innovative product offering unlike any other set of vendors in the Canadian marketplace.

About Communitiq Systems Inc.

Communitiq Systems Inc. (CSI) is the designer, manufacturer, and software developer for financial transaction kiosks / ATMs. CSI can apply their many years of expertise in Interac transaction processing and sophisticated software development to Access Canada's kiosk development and transaction processing requirements.

About Access Canada

Access Canada provides Canadian financial institutions with a completely integrated end to end financial product management solution. Written in Microsoft .NET and managed on one SQL database ARMnet provides a customer centric CRM based solution using one Client Information File (CIF) to manage multiple loan, mortgage or wealth management products. For further information on the benefits of ARMnet Financial Product Management Solution for your financial institution or to arrange a demonstration please contact our Access Canada office at +1(888)883-2852 Extension 400 or by email at armnetsales@accesscanada.com.
