

AXCESS CANADA NEWS RELEASE

AXCESS CANADA STRATEGIC PARTNERSHIP ANNOUNCEMENT WITH KINESSOR

September 8, 2008 Montreal, Quebec: In striving to guarantee proper support of our implementation methodology, and insure Axxess Canada is completely scalable with respect to any current or potential future client project requirements corporately we began searching for a strategic partner with Business Analyst expertise in the Canadian and global financial sectors in both banking and insurance spaces. These resources also had to complement our global internal staff here in Canada, the United States, and Australia and be able to work well in our team environment. After a lengthily review, Axxess Canada is pleased to announce that we have formed a strategic partnership with **KinEssor**, a Canadian based consulting firm specializing in Human Resource Services for the banking and financial services sector.

KinEssor currently provides Business Analyst support services and also develops solid training programs in both a classroom and e-learning environment for a number of leading Canadian financial services clients including the National Bank of Canada, the Desjardin Group and the Laurentian Bank of Canada. Each **KinEssor** team member we selected has solid experience in the banking sector, some in excess of 20 years with a number of major Canadian financial institutions. Each was also selected not only for their abilities but also for their capability to work in our corporate environment under the direction of our Team Leads.

We believe this strategic partnership will insure for our clients we have additional access to sound credible resources to supplement our internal team credibly as the demand for our solution continues to grow on a global basis. We look forward to our clients benefiting from the expertise we collectively bring to each implementation.
