MONEYIQ CANADA ANNOUNCES LAUNCH OF NATIONAL CASH AND CASH NATION PAYDAY LOAN PROVIDERS

June 22, 2009 Stratford, Ontario: MoneyIQ Canada (www.moneyiq.ca) together with the support of their strategic partners Axxess Canada (www.axcesscanada.com), Horn IT (www.horn-it.com) and Edgeflow Media (www.edgeflowmedia.com) are pleased to announce the launch of two additional Internet based Payday Loan clients:

- **National Cash** (www.nationalcash.ca)
- **Cash Nation** (www.cashnation.ca)

With the recent legislative changes in different provincial jurisdictions across Canada with respect to tighter Payday Loan regulations on fees and services provided in this industry it became even more important to be working with a solution that has the ability to respond to changes quickly. Using ARMnet, MoneyIQ has created a solid structure to meet these rigorous compliance requirements and insure its current and future clients are able to adapt to these changes easily.

This will also insure that a solid solution foundation will also be available for other Payday Loan firms who during their existing system review determine their software is not compliant and are looking for a credible alternative with the capability to support a prompt turnaround in migrating to a new solution provider.

For further information on the services MoneyIQ can provide to your institution go to <http://www.moneyiq.ca>.
