

ACCESS CANADA NEWS RELEASE

January 04, 2010 Toronto, Ontario: Access Canada is pleased to announce a strategic marketing partnership with **Reinsurance Management Associates (RMA)** (www.rmacan.com), one of Canada's leading creditor insurance product design and administration firms and RTM Benefit Partners a consulting firm specializing in business development in the Creditor Insurance and Life & Health Insurance space.

RMA specializes in portfolio management of creditor insurance policies. They offer administration, marketing and actuarial services, with expertise in a variety of risk classes, including life, disability, critical illness and unemployment benefits covering mortgage and automobile loans.

Together with their underwriters and the team at Access Canada, our focus in creating this partnership is to bring sound creditor product solutions to the financial marketplace that is easily adjudicated in the ARMnet system and require minimal underwriting to gain approval, policy generation and manage billing and commission payment.

The following products are being offered and accessible through this program:

1. **Creditor Life Insurance**
2. **Creditor Disability Insurance**
3. **Creditor Critical Illness**
4. **Involuntary Unemployment Insurance**

Underwritten by an insurance industry leader in the Creditor market and a product leader in Canadian disability programs, this program exceeds many benefit designs, currently in place, particularly in the mortgage brokerage space in Canada where many Canadian customers lack access to quality products like Critical Illness and Involuntary Unemployment Insurance as an example. Our objective is to work with our institutions to offer solutions that do insure full protection for their clients. This program achieves that credibly.

For further information on the benefits of this program for your financial institution and how the underwriting process for them can be automated in ARMnet please contact our office for a demonstration by calling is at 1-705-719-5660 or by email at armnetsales@accesscanada.com.
